

Midway Chimney & Masonry

A warm, grounded, South Side Chicago brand. Honest pricing in a serif, real job-site photography under a warm overlay, fire red only where it counts — and no navy blue, anywhere.

Color

Warm temperatures throughout. **No navy blue, anywhere** — every competitor uses it. Red appears only on interactive elements and the price callout; it should surprise, never saturate.

Real job sites, one warm overlay.

1. Warm near-black overlay at **40–55%** on every photo background.
2. Photos only on dark sections — **never** on a light background.
3. Bleed to the edge: no rounded corners, no border. Constrain the text, not the image.

Authentic, warm, daylight photography only. No stock — it clashes with the real work.

Hard rules

Always

- Warm palette only — serif headlines, Inter body (16px+).
- Alternate dark / light sections down the page.
- Photos on dark sections, under a 40–55% warm overlay, edge-to-edge.
- Fire red on CTAs & prices; oxblood for destructive.
- Flat surfaces, 6px radius; one shadow (sticky nav).
- Deliberate 250–300ms ease-in-out; buttons deepen on hover.
- Transparent pricing in the serif, at menu-price scale.

Never

- **Navy blue** — anywhere.
- Badge / certification logo grids.
- Pill-shaped buttons.
- Thin-weight Playfair.
- Stock photography.
- "Family Owned" as a badge or stamp.
- Gradients, patterns, textures, glassmorphism.
- Emoji · icon grids · auto-playing video.

Voice: neighborly, honest, plain-spoken South Side Chicago. "We" for the business, "you" for the reader. Sentence case; UPPERCASE only for the tracked eyebrow. Specificity over claims — name the neighborhood and the trade detail. No hype, no corporate filler.
